Le P'tit Chacal

Feeding your Mod

I recommend to use AW IMR or AW protected. The grey ultrafire doesn't fit.

- You can adjust the switch to the length of the battery (it is already adjusted for AW IMR).

How to adjust: Unscrew the screw up to 1 or 2 turns, and tighten the nut on the spring.

I recommend to watch my video on my website (on the product's page) or on youtube : my channel is "aniki988", the video 's name is "réglage du switch du p'tit chacal".

_ Please do not force when screwing the top and bottom caps to avoid damaging the threads.

Cleaning your Mod

- To ensure that the mod will always work properly, you must clean it regularly with soapy water, especially the threads.

After sale service

Our mods have a three months warranty. Please check the terms and conditions for further details on warranty on our website.

Don't hesitate to contact me if you have any problem through animodz.fr
